

MAD ABOUT SCIENCE INCURSION

On Thursday the 25th of May, 2017, Sophie from Mad About Science came to visit the 4/5s and the 5/6s.

One of the activities was to use a glowstick and ourselves to make a full circuit, therefore lighting up the glowstick. We used shoes, ear rings, hair, arms and legs, which sometimes worked and sometimes didn't.

Another activity was to make a toy circuit using batteries, fans, a radio and an alarm. After that, Sophie showed us an electronic spider, which was powered by solar panels.

It was a very fun incursion and thank you to Sophie who took time out of her day to come to our school to run the workshop.
