

# Responsible Pet Ownership

This week students from Prep to Grade 3 were involved in an incursion all about 'Responsible Pet Ownership'. In the incursion students learnt that with owning a pet comes lots of responsibilities. They were educated on the best pet to suit different home environments, how to provide a safe and secure environment for your pet, what to do and how to look after your pets basic welfare needs.

Specifically, the students were taught how to safely interact with dogs. They then used this knowledge and put it to practice with a beautiful great dane called Morgan.
