

# 5/6H VEGGIE PATCH WORK

This year, Grade 5/6H have been working on the veggie garden in all of our spare time, to make it look really good. We planted, we weeded and we picked our tomatoes, corn, lettuce, broccoli, cauliflower, basil, rocket, coriander and we made soup with the broccoli, cauliflower and some basil on top. We also cooked our corn to eat, it was delicious!

A few weeks ago, Garden Gurus from 9Life came to our school to film our veggie garden for an episode of their TV show, which will be airing soon.

We got our hands really dirty and had a great time. Nothing's better than being in the veggie patch!
